## LETTER OF PROTECTION MEDICAL PROVIDERS

---

The following providers offer medical treatment under a Letter of Protection (“LOP”), which typically allows a patient to defer payment until settlement. Please contact the provider for more information about their billing practices.

PLEASE NOTE: This is a non-exhaustive list of medical providers in the area that provide services for patients who have been injured in incidents arising from third party negligence. The Brandy Austin Law Firm neither guarantees payment to these providers, nor makes any recommendations about the treatment you should or should not receive. You are free to choose whatever medical provider you see fit or that your treating physician recommends, and you are not required to choose a provider from this list. We are not medical professionals and cannot give medical advice. Please speak with your physician if you have questions about your treatment plan.
